CONTROL ZONE

Hey, Boomers!

Spring has almost sprung, so it must be time for my annual circuit and chrome service. In tune with my make over, this issue of *STC*'s looking rather spick and span ...

Sonic, Amy and Johnny venture into enemy territory in Mission to the Metropolis Zone! Knuckles has a *brush* with Captain Plunder when they pair up for a new six part voyage - no doubt you'll be hooked! There's plenty more swashbuckling in part two of Shining Force, and Tails is in a hole with Tantrum in Fox on the Run.

The Graphic Zone goes green to coincide with St Patrick's Day. Your computer artwork is also featured this issue in the Pixel Zone, proving what a multi-talented bunch of Boomers you are!

If you want to know the secrets of Sega's energetic Echidna, don't forget to order the first ever Knuckles Knockout Special, on sale 25 May. Meanwhile, I have to prepare for the Easter issue due out in two weeks' time, so enough rabbit from me - see you then for an even more egg-citing read!

Q ZONE

Q IS FOR QUESTION.
Q IS FOR QUERY.
Q IS FOR QUANDARY.

IF YOU WANT TO ENTER THE Q ZONE FOR HINTS, TIPS AND HELP WITH YOUR FAVOURITE SEGA GAMES, DROP A LINE TO:-

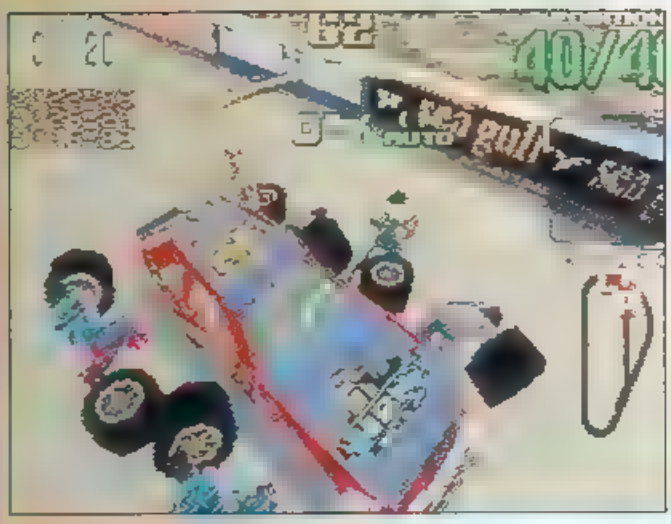
Q ZONE, SONIC THE COMIC, 25-31 TAVISTOCK PLACE, LONDON, WC1H 9SU.

SATURN SPECIAL

Chris Jones at STC's Q Zone has come up with some handy hints for Saturn system users since the launch last year

DAYTONA USA

Hurtling around Daytona race track is a must for speed demons. This ace new Saturn racing game has been cranking up the revs ever since its release. Here are just a few ways for you to burn rubber and tinker with the games settings.



TOP TIPS

1. The number one tip for racing is to remember to **Slipstream**. This means when you want to overtake a car, drop in right behind it and you'll instantly start picking up speed because the car in front is soaking up all the wind resistance.

   Slipstreaming will allow you to bust your cars top speed and zoom off past an opponent.

2. Learn to drive into a **Skid**. This allows you to remain in control of the car and not waste vital seconds

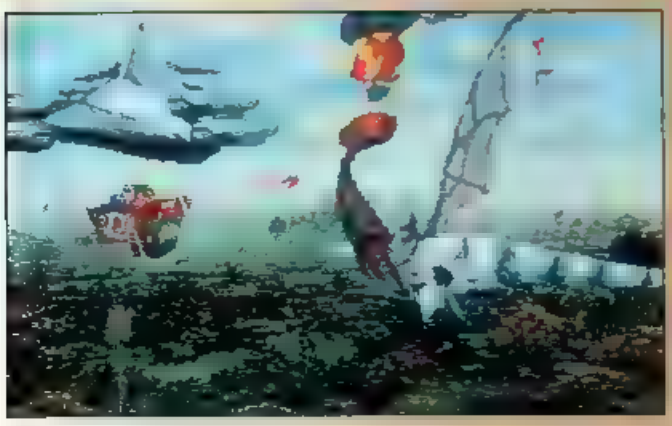
3. Get more Horsepower from the game by holding **UP-LEFT** on the D-pad, along with **A, B, X, Z** and **START**. This will give you access to all the cars (obtained through winning races) and a

metallic painted **Horse** that you can drive around the track. Nay kidding!

4. When you are in the pits, press **A, B, C,** and **START,** at the exact moment the pit crew remove your tyres. Once the race is over, watch the demo and you'll see that the crew have forgotten to put the wheels back on your vehicle - it's now a hover-car!

5. Finally, play **Chicken** by racing the wrong way down the track. Do this by holding down **START** on the track select screen which will activate the mirror mode. Funnily enough, your race times will still be logged if you survive.

TANKER DRAGOON



If, when playing this 3-D dragon riding game you suddenly think "More Speed, More Speed", then a 'wizard mode' is available to make this game super fast. Go to the title screen and enter **L, R, L, R, Up, Down, Up, Down, Left** and **Right**

For a special 'Space Harrier' mode go to the Saturn system options screen, change the language to German (Deutsch) and then at the title screen enter **Up, X, Right, X, Down, X, Left, X, Up, Y** and **Z.**

Finally, for a special edge in this game activate the 'barrel roll' mode. Go to the title screen and enter **Up, Right, Down, Left, Up, Right, Down, Left** and **Up.** Barrel rolls are then available at any time by locking on and repeatedly pressing **Right.**

If you are a mean fighting machine, then this **Stage Select** cheat is sure to make you punch drunk. For a Stage Select and the ability to alter the ring size, simply press **Up** on the title screen 12 times and then access the options screen. Go down to "exit" and press **Down** a few times to find a new options screen.
